-Vann Farr, Founder

# TEJAS OILFIELD SERVICE

## HEAVY HAUL AND WELLSITE CONSTRUCTION

### WELLSITE CONSTRUCTION

- We bring expertise to any construction or reclamation project
- Licensed, insured, and bondable for any size and type of project
- Construction fleet is comprised of 30 pieces of equipment—dozers, graders, rock trucks, excavators, rollers, and other earth-moving equipment.
- Construction services include mass earth moving projects, excavation projects, road building and maintenance, pit lining services, and site reclamation

### HEAVY HAUL

- We utilize highly customized heavy haul trucks and multiple tandem trailers to move your heaviest equipment
- We provide equipment and logistics to move extremely large, heavy, and awkwardly shaped loads, which include drilling rig components, pipe, compressors, pump jacks, and production tanks
- Our fleet is comprised of 45 heavy haul trucks, including winch and tandems

### FORKLIFT SERVICES

- Experienced in handling tubing, casing, and wellsite equipment
- Fit-for-purpose sized forklifts
- Efficiency gained by coordination of pipe yard, trucking, and forklifts services

### PIPE SERVICES

- We offer pipe storage and logistics, forklifts for tubulars, as well as clean and drift services
- Spanning more than 14 acres, our Cleburne, Texas pipe yard can accommodate your most demanding storage needs
