

WELLSITE ACCOMMODATIONS AND EQUIPMENT RENTALS

NEW EQUIPMENT AND FRESH IDEAS

Peak Oilfield Services was founded by John Schmitz in 2007 to bring a new look to the industry. Peak was formed organically, which means our customers benefit from newly purchased equipment.

With over 20 years experience, Peak's management team brings a strong background in the rental business. This team uses their experience to optimize reliable operations and find real solutions for our customers.

SERVICE AREAS:

- Texas
- Oklahoma
- Louisiana

PROVIDING FUNCTION AND COMFORT:

We coordinate according to your needs, making your crew more comfortable and productive at the wellsite.

Our accommodations include full-size trailer houses, change houses, skid houses, RV's, and satellite TV systems. We can also meet all your water and sewer needs such as installing water tank systems, delivering bulk or bottled water, setting up sewer systems and managing your sewage removal needs.

Our equipment rentals include generators, light plants, manlifts, and trash trailers and service. We coordinate all your fueling needs timely, safely, and reliably.

SAFETY IS OUR HIGHEST PRIORITY

Peak management and personnel are committed to a culture of safety for our customers, fellow employees, and the environment.

We understand that well-maintained water and sewer systems contribute to the overall quality of the wellsite.

We always ensure compliance with all state environmental regulations, not just because it's required, but because it's the right thing to do.

OUR CUSTOMERS TRUST OUR RELIABILITY:

- XTO Energy
- Chesapeake Energy
- Williams
- Devon Energy
- Antero Resources
- EOG Resources
- Quicksilver
- Carrizo Oil & Gas

“Our personnel genuinely care about the quality of our equipment and the service we provide. This will ensure that your wellsite will operate safely and smoothly.”
